DLA Piper has advised Trevian Funds AIFM on the establishment of a new carbon sink fund (Trevian Carbon Sink Real Estate I), including consultation with the Finnish Financial Supervisory Authority.

Special investment fund Trevian Finland Properties I has launched significant projects to improve the energy efficiency and reduce the carbon footprint of its real estate portfolio. Trevian Funds AIFM has also established a carbon sink fund to enhance biodiversity and protect and grow natural carbon sinks, mainly through restoration and conservation of drained peatland in different parts of Finland.

The DLA Piper Helsinki-based team was led by partner Mikko Larvala, who was supported by counsel Kristiina Hirva, senior associate Vilma Nuutinen and associates Tuukka Toropainen and Petteri Larnimaa.
