Finland

DLA Piper has advised Voima Ventures as lead investor on its investment in Liquid Sun Ltd, a Finnish green tech company revolutionizing the production of synthetic sustainable aviation fuel (eSAF).

Liquid Sun's breakthrough technology transforms CO<sub>2</sub> and water into renewable e-fuels, ushering in a new era of clean aviation. The funding round raised nearly €4 million and represents a significant milestone for Liquid Sun as they move forward with Finland's first eSAF production test facility.

Voima Ventures helps founders accelerate the growth of deep technology ventures to global markets.

The DLA Piper team consisted of [Jonathan Andersin](#), [Diana Esser](#), [Petteri Günther](#) and [Riikka Autio](#).
